

PEDRO STEVEN CASTIBLANCO PIRACOCA

DEVELOPER FULL STACK/ SOFTWARE ENGINEER

PROFESSIONAL PROFILE

+5 years of experience as a full stack developer. Backed by a strong background in web development covering both front-end and back-end technologies, including databases. My work history also includes providing technical support and creating effective IT solutions.

Skilled in solving complex problems, delivering high quality code, plus working in a dynamic and demanding environment. Able to work independently or as part of a team, with communication and project management skills.

Currently, I hold the position as a programmer and support engineer, with over 5 years of experience in developing project requirements and supporting enterprise web applications, my experience includes code optimization, efficient problem solving and continuous improvement of software quality.

My work experience includes the following technologies: Java, JavaScript, HTML5, CSS3 and JSP, as well as relational databases such as Oracle, SQLServer and Postgres. I also have advanced knowledge in modern technologies such as React and Angular. My versatility extends to languages like C# and databases like MySQL, which allows me to tackle projects in an integral way and adapt to different technological needs.

WORK EXPERIENCE

Support engineer and programmer at MEGASOFT S.A.S.

- January 2019 – Currently
- Debugging and troubleshooting of web applications and interfaces.
- Developed new functionalities and maintained existing ones.
- Provided technical support to customers, resolving company software issues in a timely and efficient manner.
