PEDRO STEVEN CASTIBLANCO PIRACOCA
JAVA DEVELOPER / FULL STACK DEVELOPER

PROFESSIONAL PROFILE

+5 years of experience as a Full Stack Developer, with a strong background in front-end, back-end technologies, and databases. With a solid track record in technical support and creating IT solutions, I excel in solving complex problems and delivering high-quality code. Skilled in working both independently and as part of a team, with strong communication. My full stack experience in Java allows me to design and develop high impact web applications, both on the client and server side.

MOST RECENT WORK EXPERIENCE

Support engineer and Full Stack Developer in **MEGASOFT S.A.S.**
January 2019 – Currently

- **Responsibilities**
    - Debugging and troubleshooting of web applications and interfaces.
    - Developed new functionalities and maintained existing ones.
    - Provided technical support to customers, resolving company software issues in a timely and efficient manner.
    - Collaborated with cross-functional teams to identify and prioritize software and system requirements, ensuring successful completion of projects within tight deadlines.

- **Key accomplishments**
    - Developed key new features that increased the functionality of the software, improving the user experience and attracting new customers.
    - Resolved complex technical issues that prevented the proper use of the software by customers, leading to a decrease in reported incidents.
    - Instructed new co-workers, facilitating their integration into the team, accelerating their learning curve, assisting them and thus improving their technical skills.

SKILLS

- HTML5 & CSS3
- JavaScript
- Angular
- React
- TypeScript
